Thanks, Tim. I have also heard that we are supposed to have a call about Hickman Egg with Maricopa County, and that this came out of a call between EPA and ADEQ this morning. Can you help flesh out the issue as ADEQ perceives it? I wasn't on the call. Thanks!

Colleen,

So sorry, I just saw this email. We'll send an inspector tomorrow and follow up with you by Wednesday.

Tim

Hi, Tim and Len,

We got a complaint about open burning in Cottonwood, AZ. I figured this fell under your jurisdiction. Can you ask the right people to follow up and let me know what you decided? I will also send you a second photo. Thanks!

Colleen

I live in Cottonwood Arizona. The burning impacts 3 housing developments that are approximately 2000 feet from the burning. Here are a couple of photos, please notice the houses in the background.

Dear Sir or Madam,

Can you tell me where you live? It makes a difference in terms of our response.

Comments: I live in a small community in Arizona. The city has opted to burn waste brought to them by landscapers near homes in our area. They are using a cage to reduce the fallout however we citizens had been subjected to the smoke & ash. Do we have any recourse? I do have photos that show how close this is to neighboring houses. Thanks
